

Serial No. 10/036,099

REMARKS

In telephone discussions with the Examiner on August 10 and 12, 2004, the Examiner explained that the Office Action Summary erroneously transposed the status of Claims 27 and 28. The Examiner informed the undersigned that Claim 27 was allowed, and Claim 28 was rejected.

The allowed claims are Claims 4-18, 21, 22, 26, and 27.

Applicants have cancelled Claims 1-3, 19, 20, 23-25, and 28-30.

Because all of the claims now pending have been allowed by the Examiner, no discussion of the references is believed necessary.

Applicants have amended page 10 of the specification to mention reference numeral 34. Applicants also submit a proposed amendment to Figure 3, showing, in red, new lead lines from reference numeral 20. Applicants request that the proposed drawing correction be approved.

Applicants submit that all objections to the drawings have been overcome.

Applicants believe that the application is now in condition for allowance, and request early favorable action.
